BUDDY AND HIS CREW

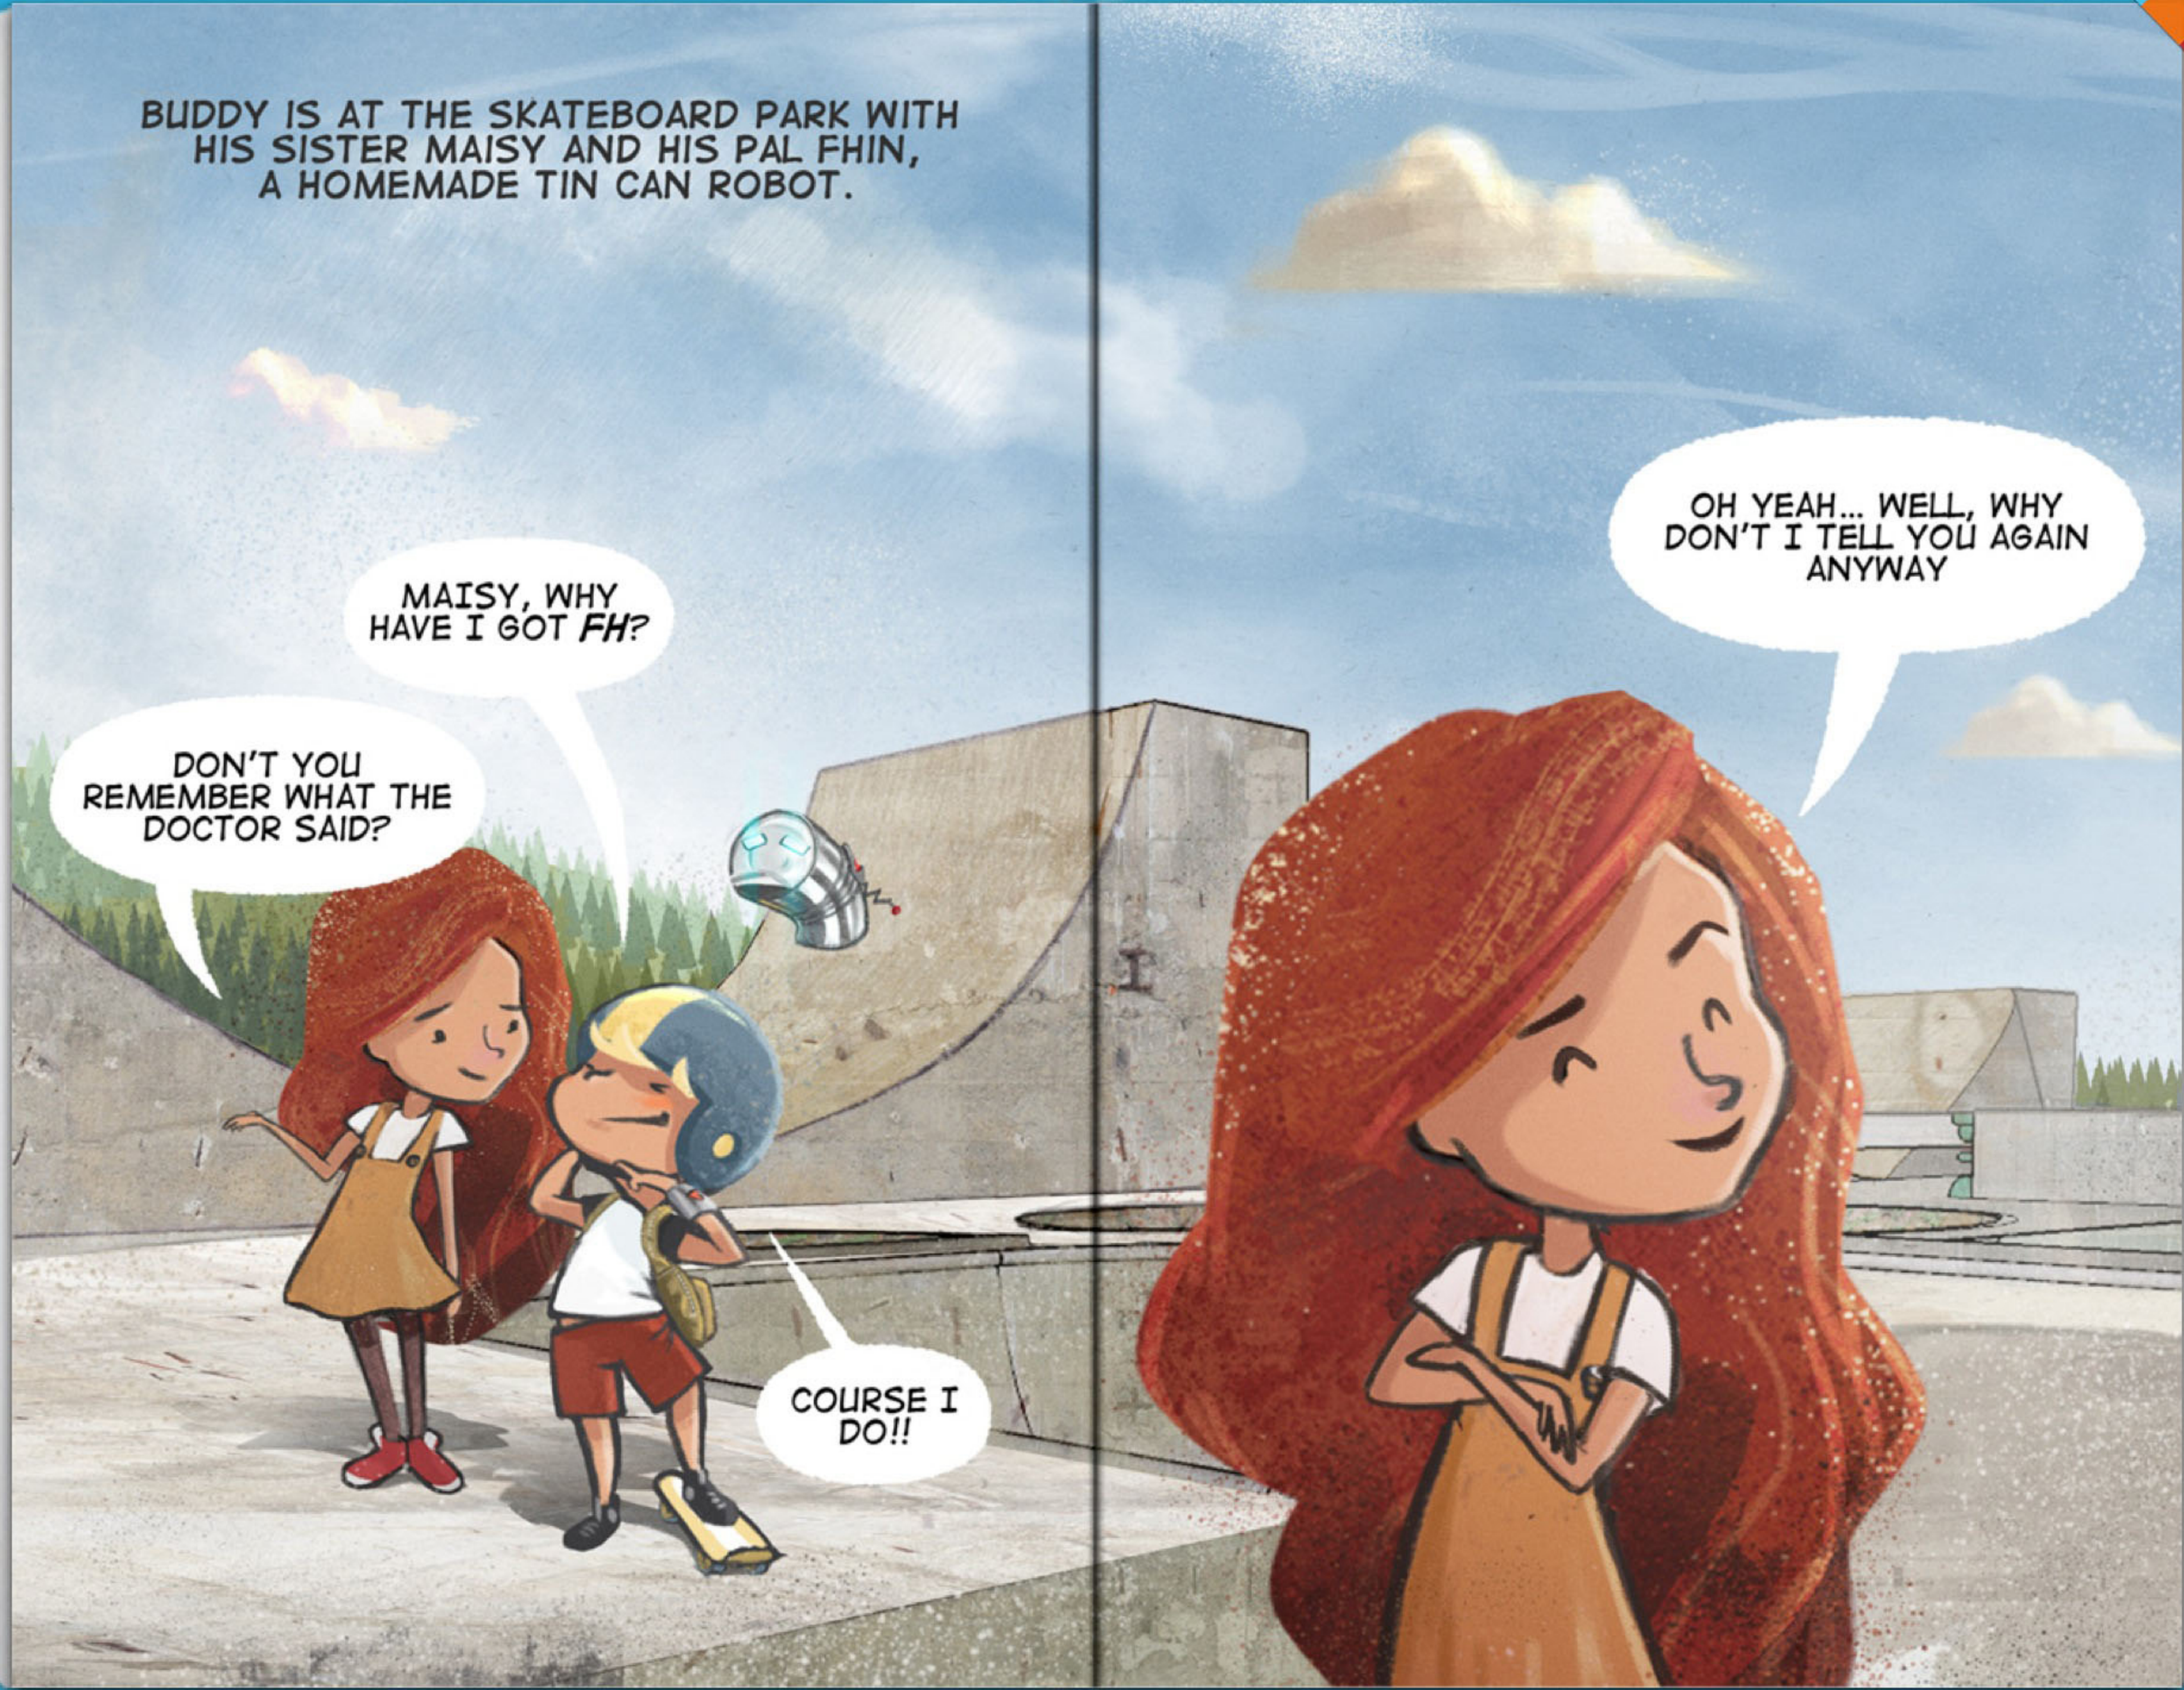

BUDDY IS AT THE SKATEBOARD PARK WITH HIS SISTER MAISY AND HIS PAL FHIN, A HOMEMADE TIN CAN ROBOT.

MAISY, WHY HAVE I GOT FH?

DON'T YOU REMEMBER WHAT THE DOCTOR SAID?

COURSE I DO!!

OH YEAH... WELL, WHY DON'T I TELL YOU AGAIN ANYWAY

BUDDY KICKS UP HIS SKATEBOARD,
TAKES OFF HIS BACK-PACK AND STICKS
FHIN TO A MAGNET ON HIS HELMET.

READY FHIN!

BUDDY!!

MAISY REACHES INTO BUDDY'S BACK-PACK, PULLS OUT A SPRAY-CAN AND HEADS OVER TO THE GRAFFITI WALL.

Family Hyper Cholesterol Aemia
↓ ↓ ↓ ↓
Family High Cholesterol In the Blood

IT'S FAMILIAL.... FAMILY, HYPER... HIGH, CHOLESTEROL... CHOLESTEROL, AEMIA... IN THE BLOOD....

INHERITED HIGH CHOLESTEROL IN THE BLOOD

GET IT!?

KIND OF..?

IT'S EASY... DAD HAS IT BUT MUM DOESN'T SO THERE WAS A **50 PERCENT** CHANCE WE'D HAVE IT TOO AND THE **BLOOD TEST** SHOWS WE DID...

SOME KIDS CAN GET FH FROM THEIR MUMS AND SOME FROM THEIR DADS AND SOME FROM BOTH PARENTS...

BUT THAT DOESN'T HAPPEN OFTEN.

BUDDY HITS THE BIG RAMP. THE SKATEBOARD SHOOTS UP IN THE AIR AND FHIN ROCKETTS OFF HIS HELMET.

WOOAHH!

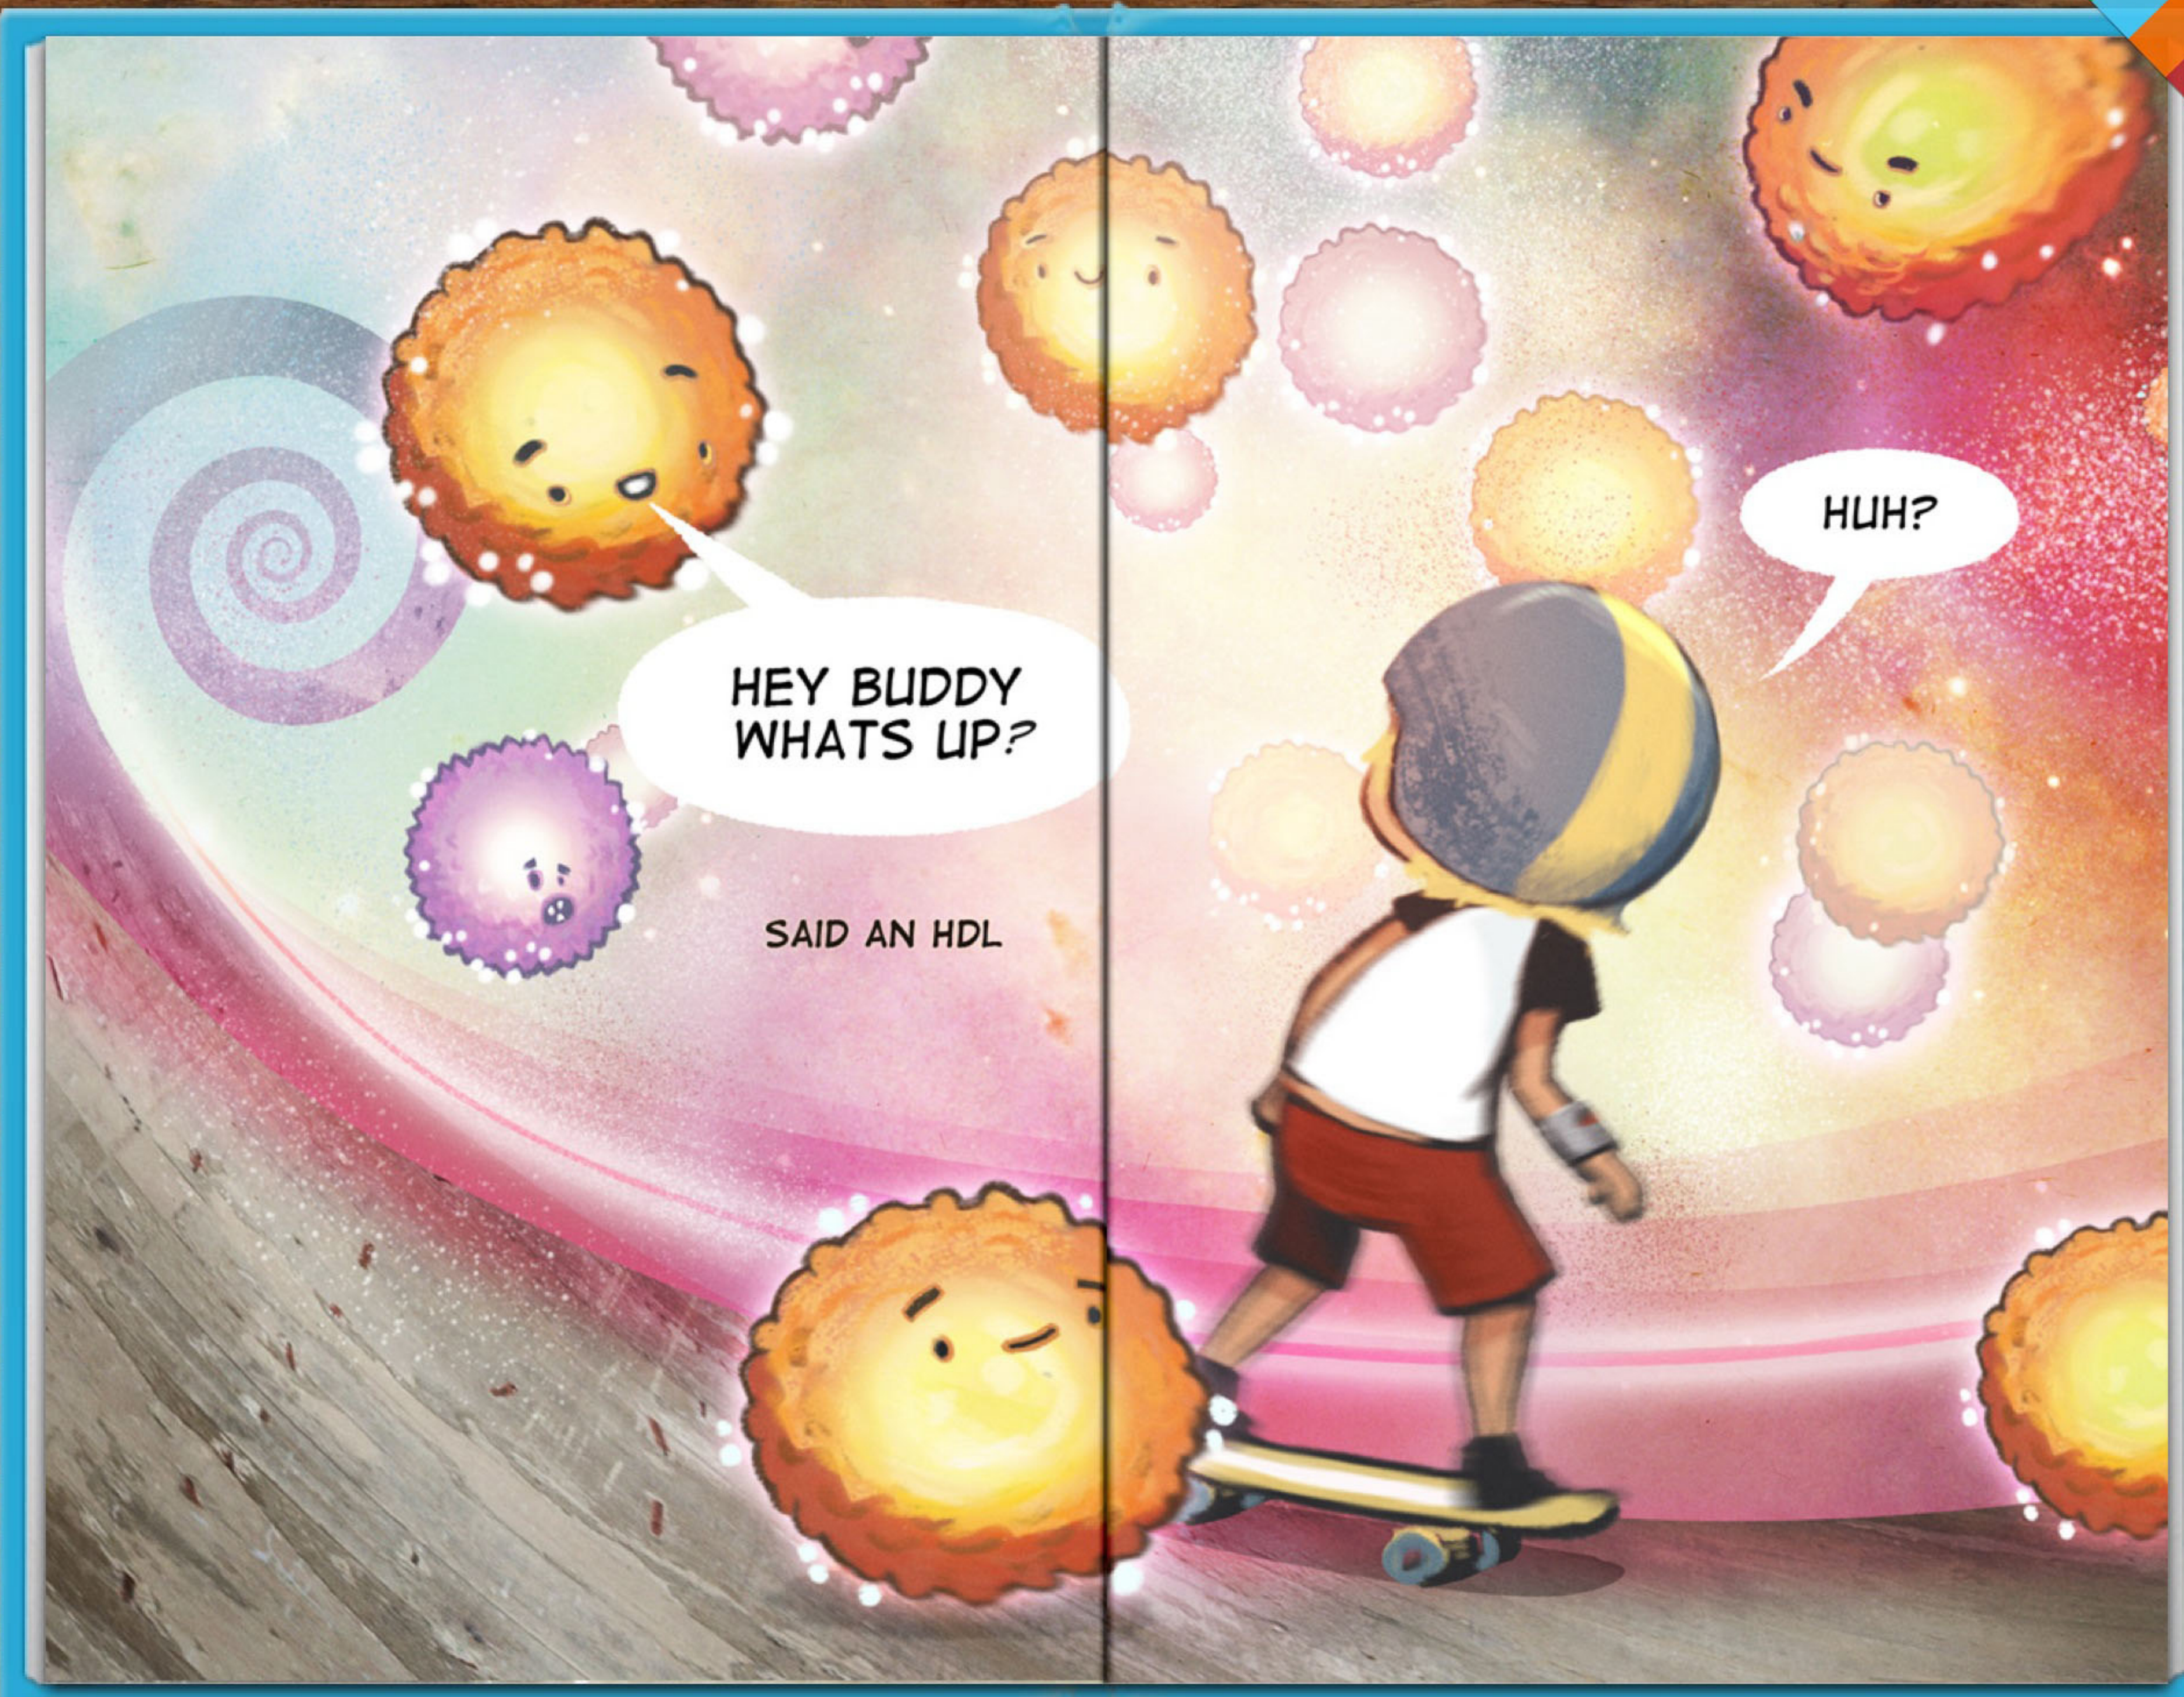

BUDDY SPINS OUT OF CONTROL AND
LANDS ON HIS SKATEBOARD AGAIN.

SWEET!

BUDDY IS IN A STRANGE AND
COLOURFUL PLACE SURROUNDED
BY HDLS AND LDLs.

HEY BUDDY
WHAT'S UP?

SAID AN HDL

HUH?

A BUNCH OF LDLS HEAD STRAIGHT FOR BUDDY.

MOVE OUTTA THE WAY KID!

GROWLED AN LDL

FHIN!?

FHIN, NOW TRIPLE IN SIZE, DIVEBOMBS IN AND CLEARS A PATH THROUGH THE LDLS.

THANKS FHIN!

WHO WERE
THOSE GUYS
ANYWAY?

THOSE **LDL**
DUDES, IN THE BLOOD,
CARRY **CHOLESTEROL**
AROUND THE BODY TO
WHERE IT'S NEEDED

WHICH IS GOOD!

BUT TOO MANY OF
THEM COULD JAM UP THE
ARTERIES AND THAT COULD
CAUSE PROBLEMS WITH
YOUR **HEART**.

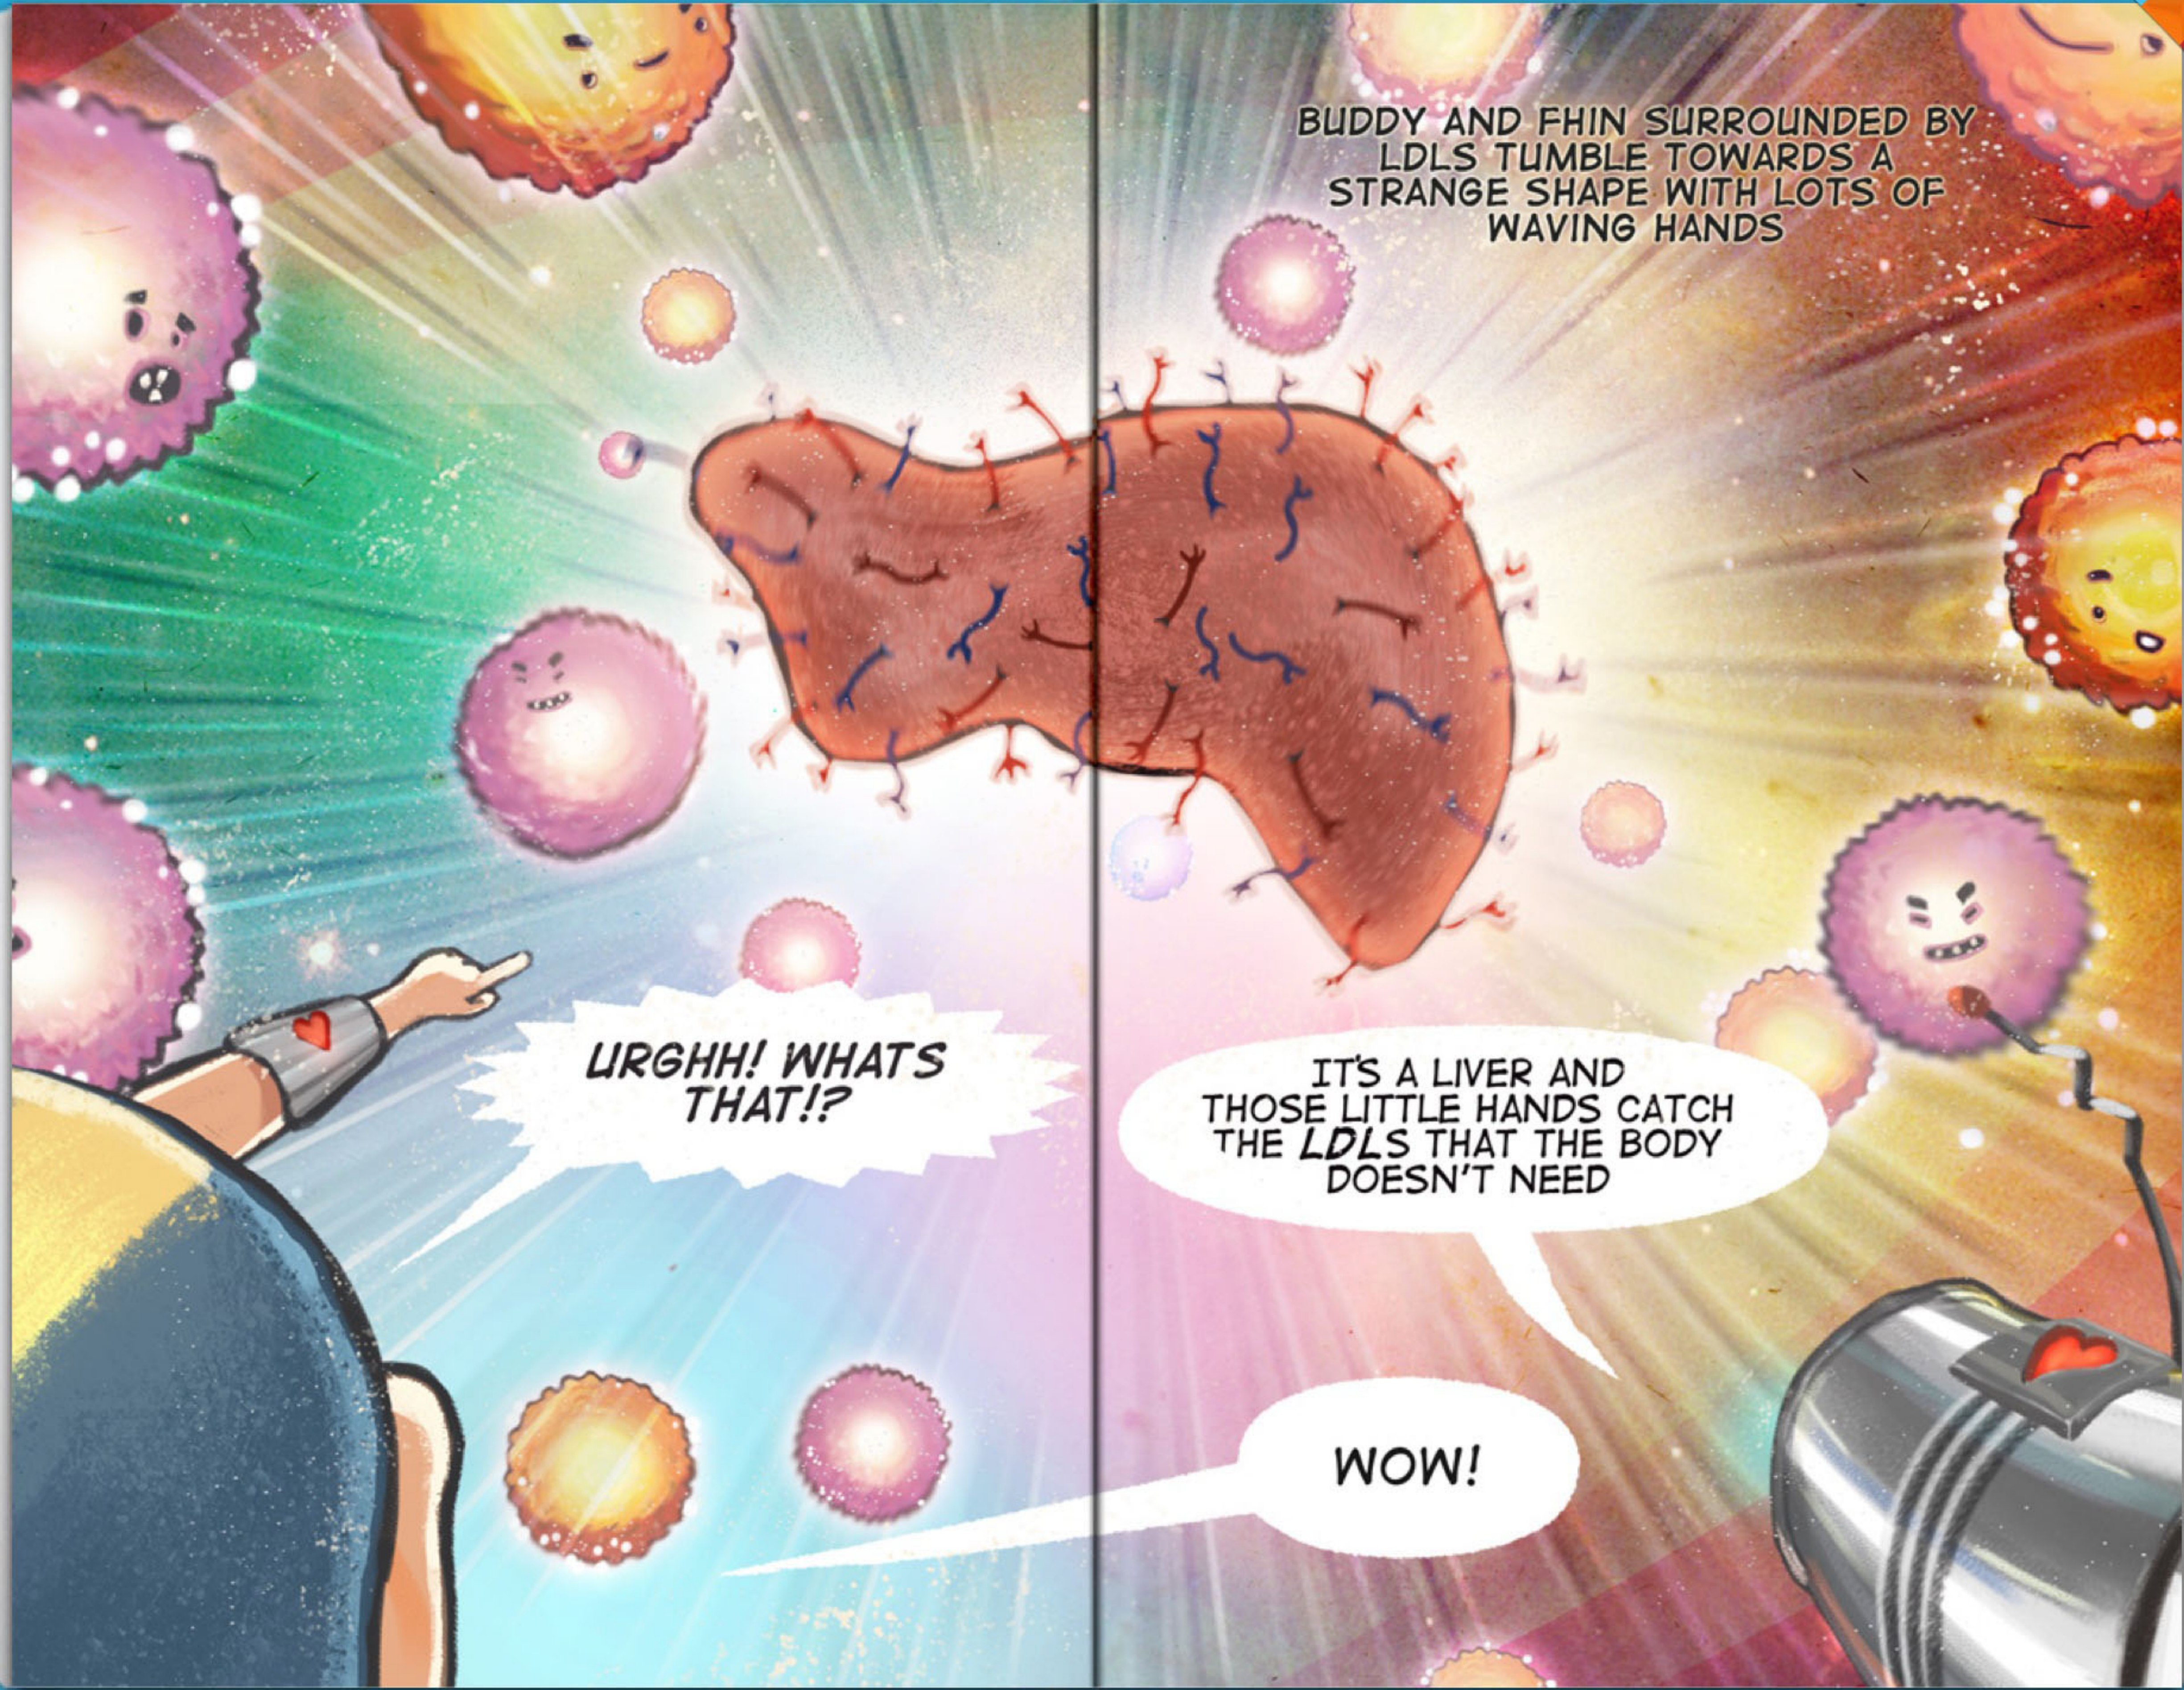

WHOOA! SCARY

BUT ITS OKAY BECAUSE THE
HDL GUYS ARE THERE TO HELP
CLEAR THE JAM AND GET THE
BLOOD FLOWING AGAIN

THEY TAKE
THE **CHOLESTEROL**
THAT ISN'T USED BACK TO
THE **LIVER** TO BE BROKEN
DOWN AND **RECYCLED**.

SO **HDL** IS
GOOD BUT TOO
MANY **LDLS** ARE
BAD.

YOU GOT
IT!

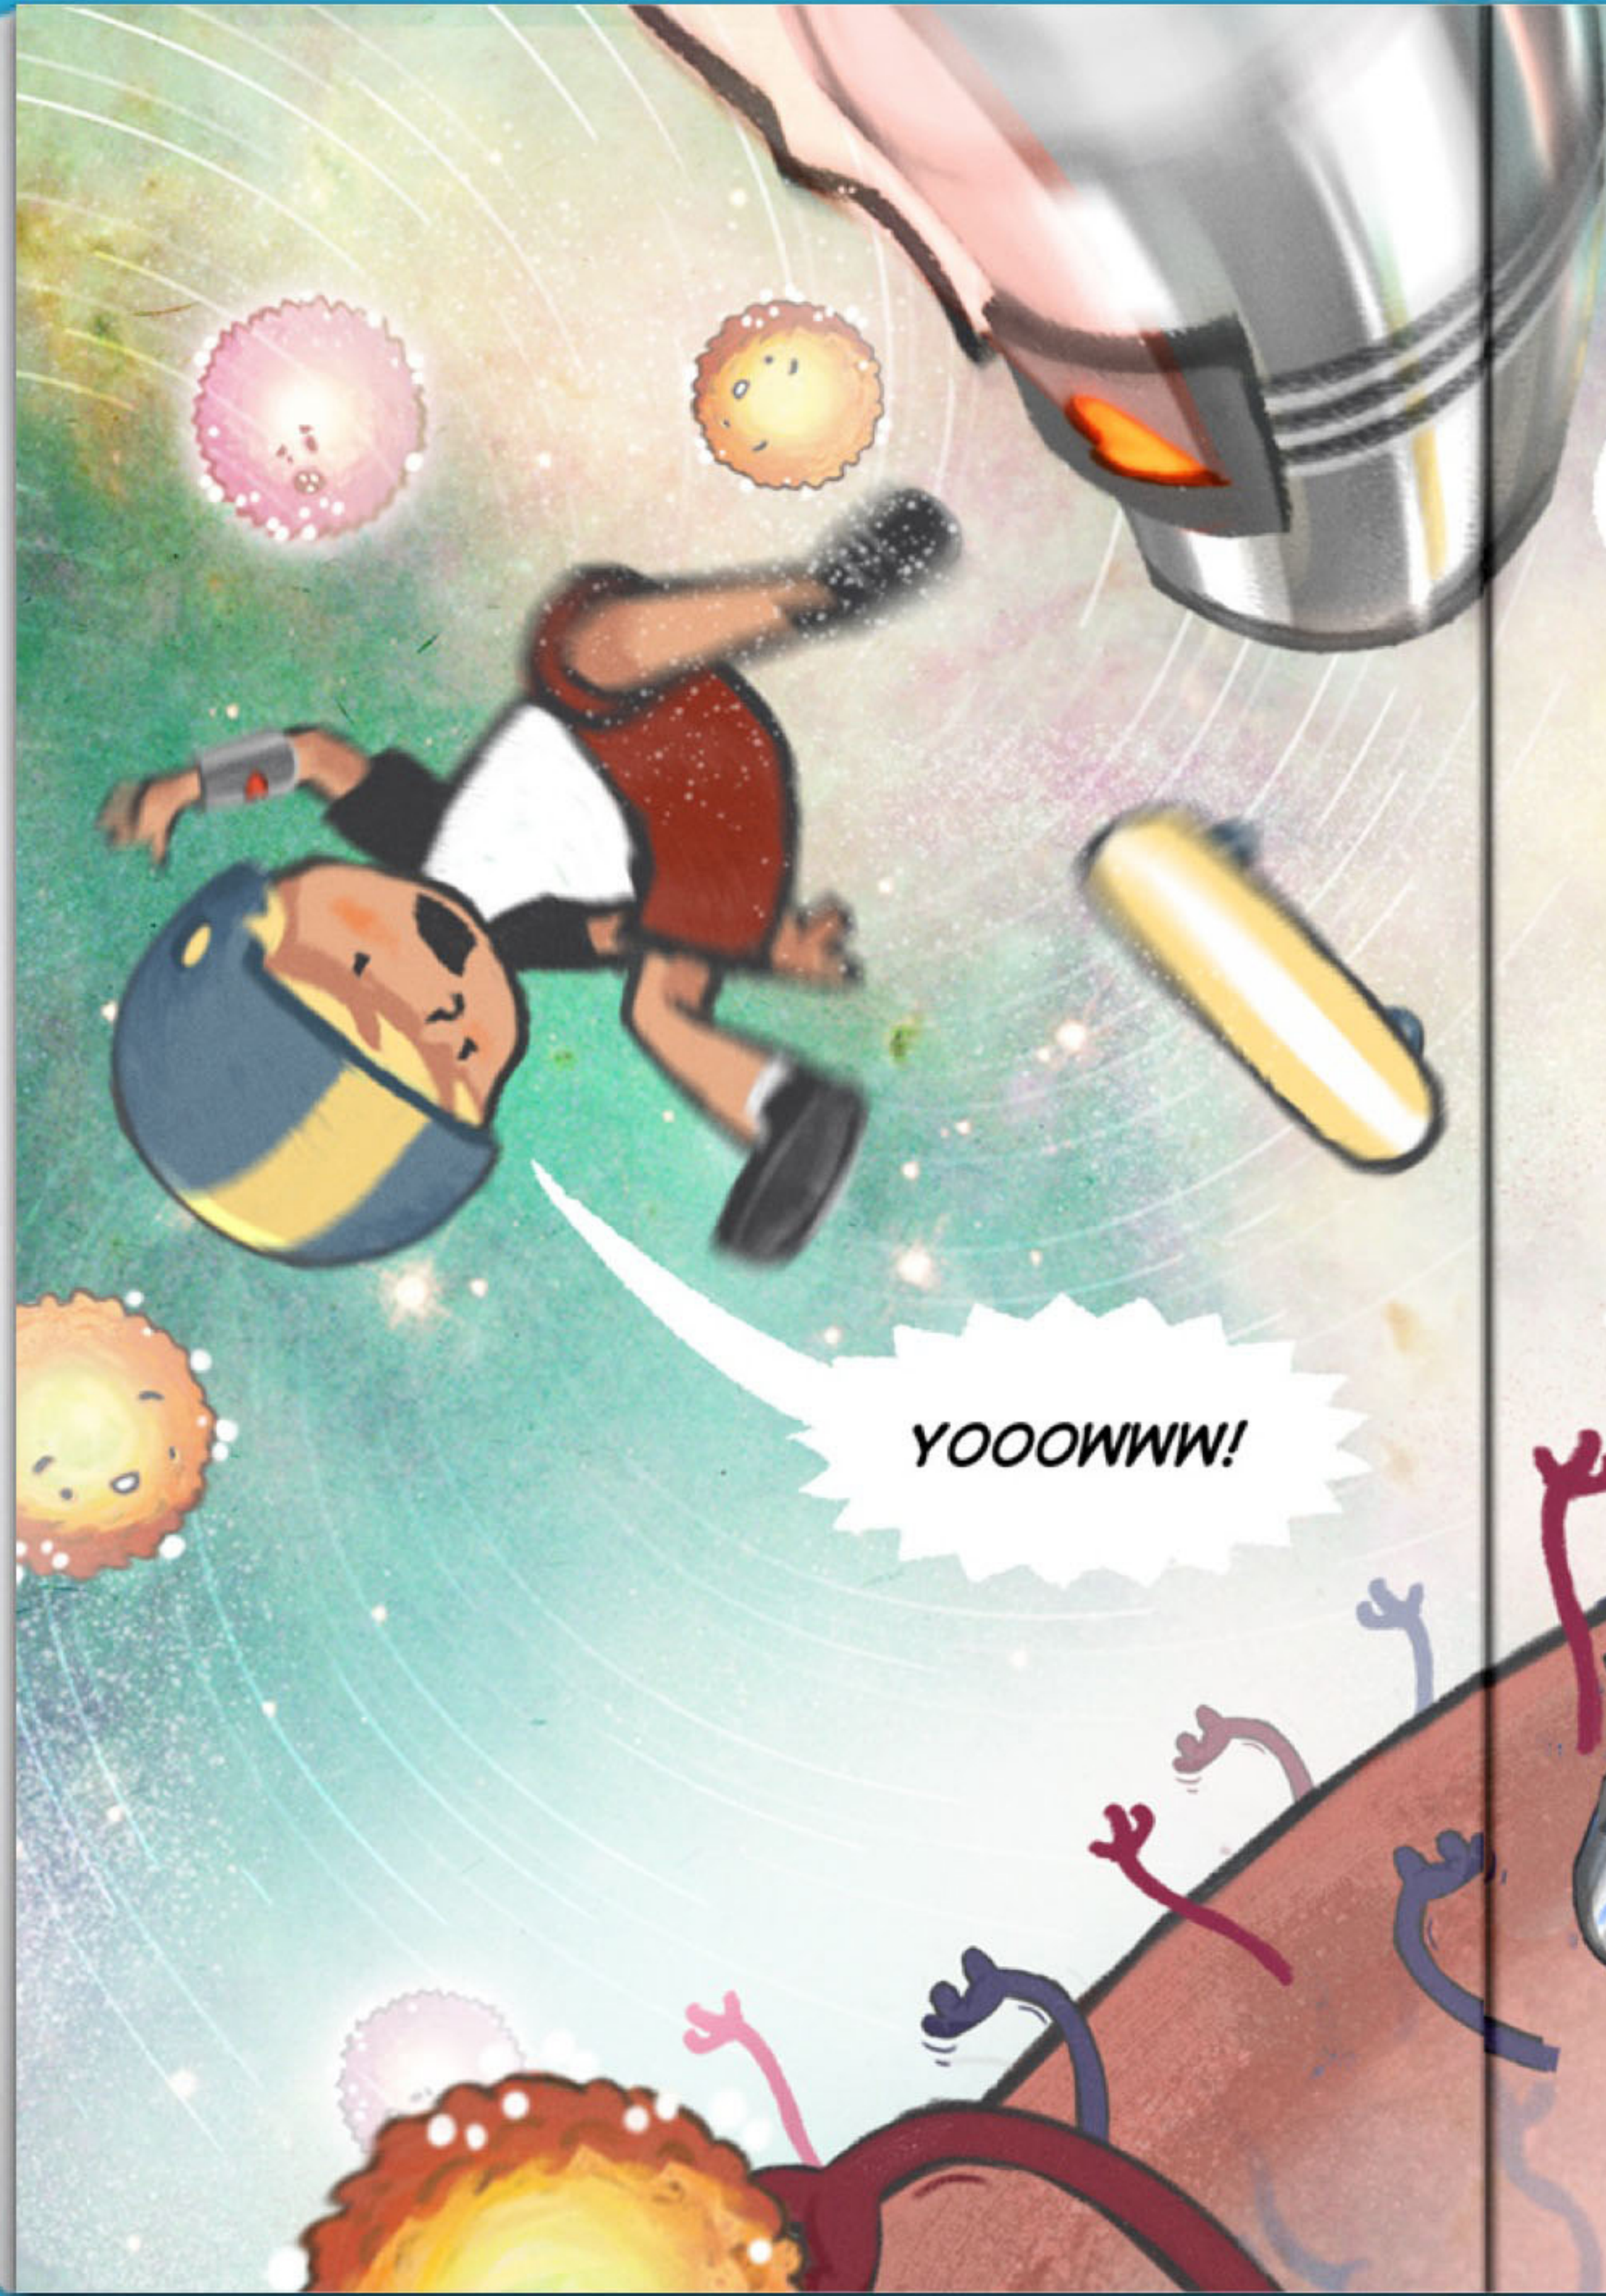

BUDDY AND FHIN SURROUNDED BY
LDLS TUMBLE TOWARDS A
STRANGE SHAPE WITH LOTS OF
WAVING HANDS

LURGHH! WHATS
THAT!?

IT'S A LIVER AND
THOSE LITTLE HANDS CATCH
THE LDLS THAT THE BODY
DOESN'T NEED

WOW!

YOOOWWW!

BUDDY IS CAUGHT BY ONE OF THE HANDS.

BUT IF YOU HAVE *FH* ONLY HALF THE HANDS WORK PROPERLY AND SO THERE WILL BE TOO MANY *LDLS* IN THE *BLOOD* AND THEY'LL BLOCK THE *ARTERY*.

THE HAND SUDDENLY LETS GO OF BUDDY AND HE SHOOTS OFF.

BUDDY!!

SNAP!

YOOOOW!!

BUDDY SLAMS INTO THE ARTERY AND GETS JAMMED IN BY THE LDLs.

ON HIS WRIST THE HEART LIGHT
STARTS TO FADE AND FHINS. BATTERY
LIGHT BEGINS TO BLINK

FHIN, GET ME OUT
OF HERE!!

BLINK
BLINK

FHIN TOO WEAK TO DO IT ON HIS
OWN, CALLS ON THE HDLS.

HEY, HELP US
OUT HERE.

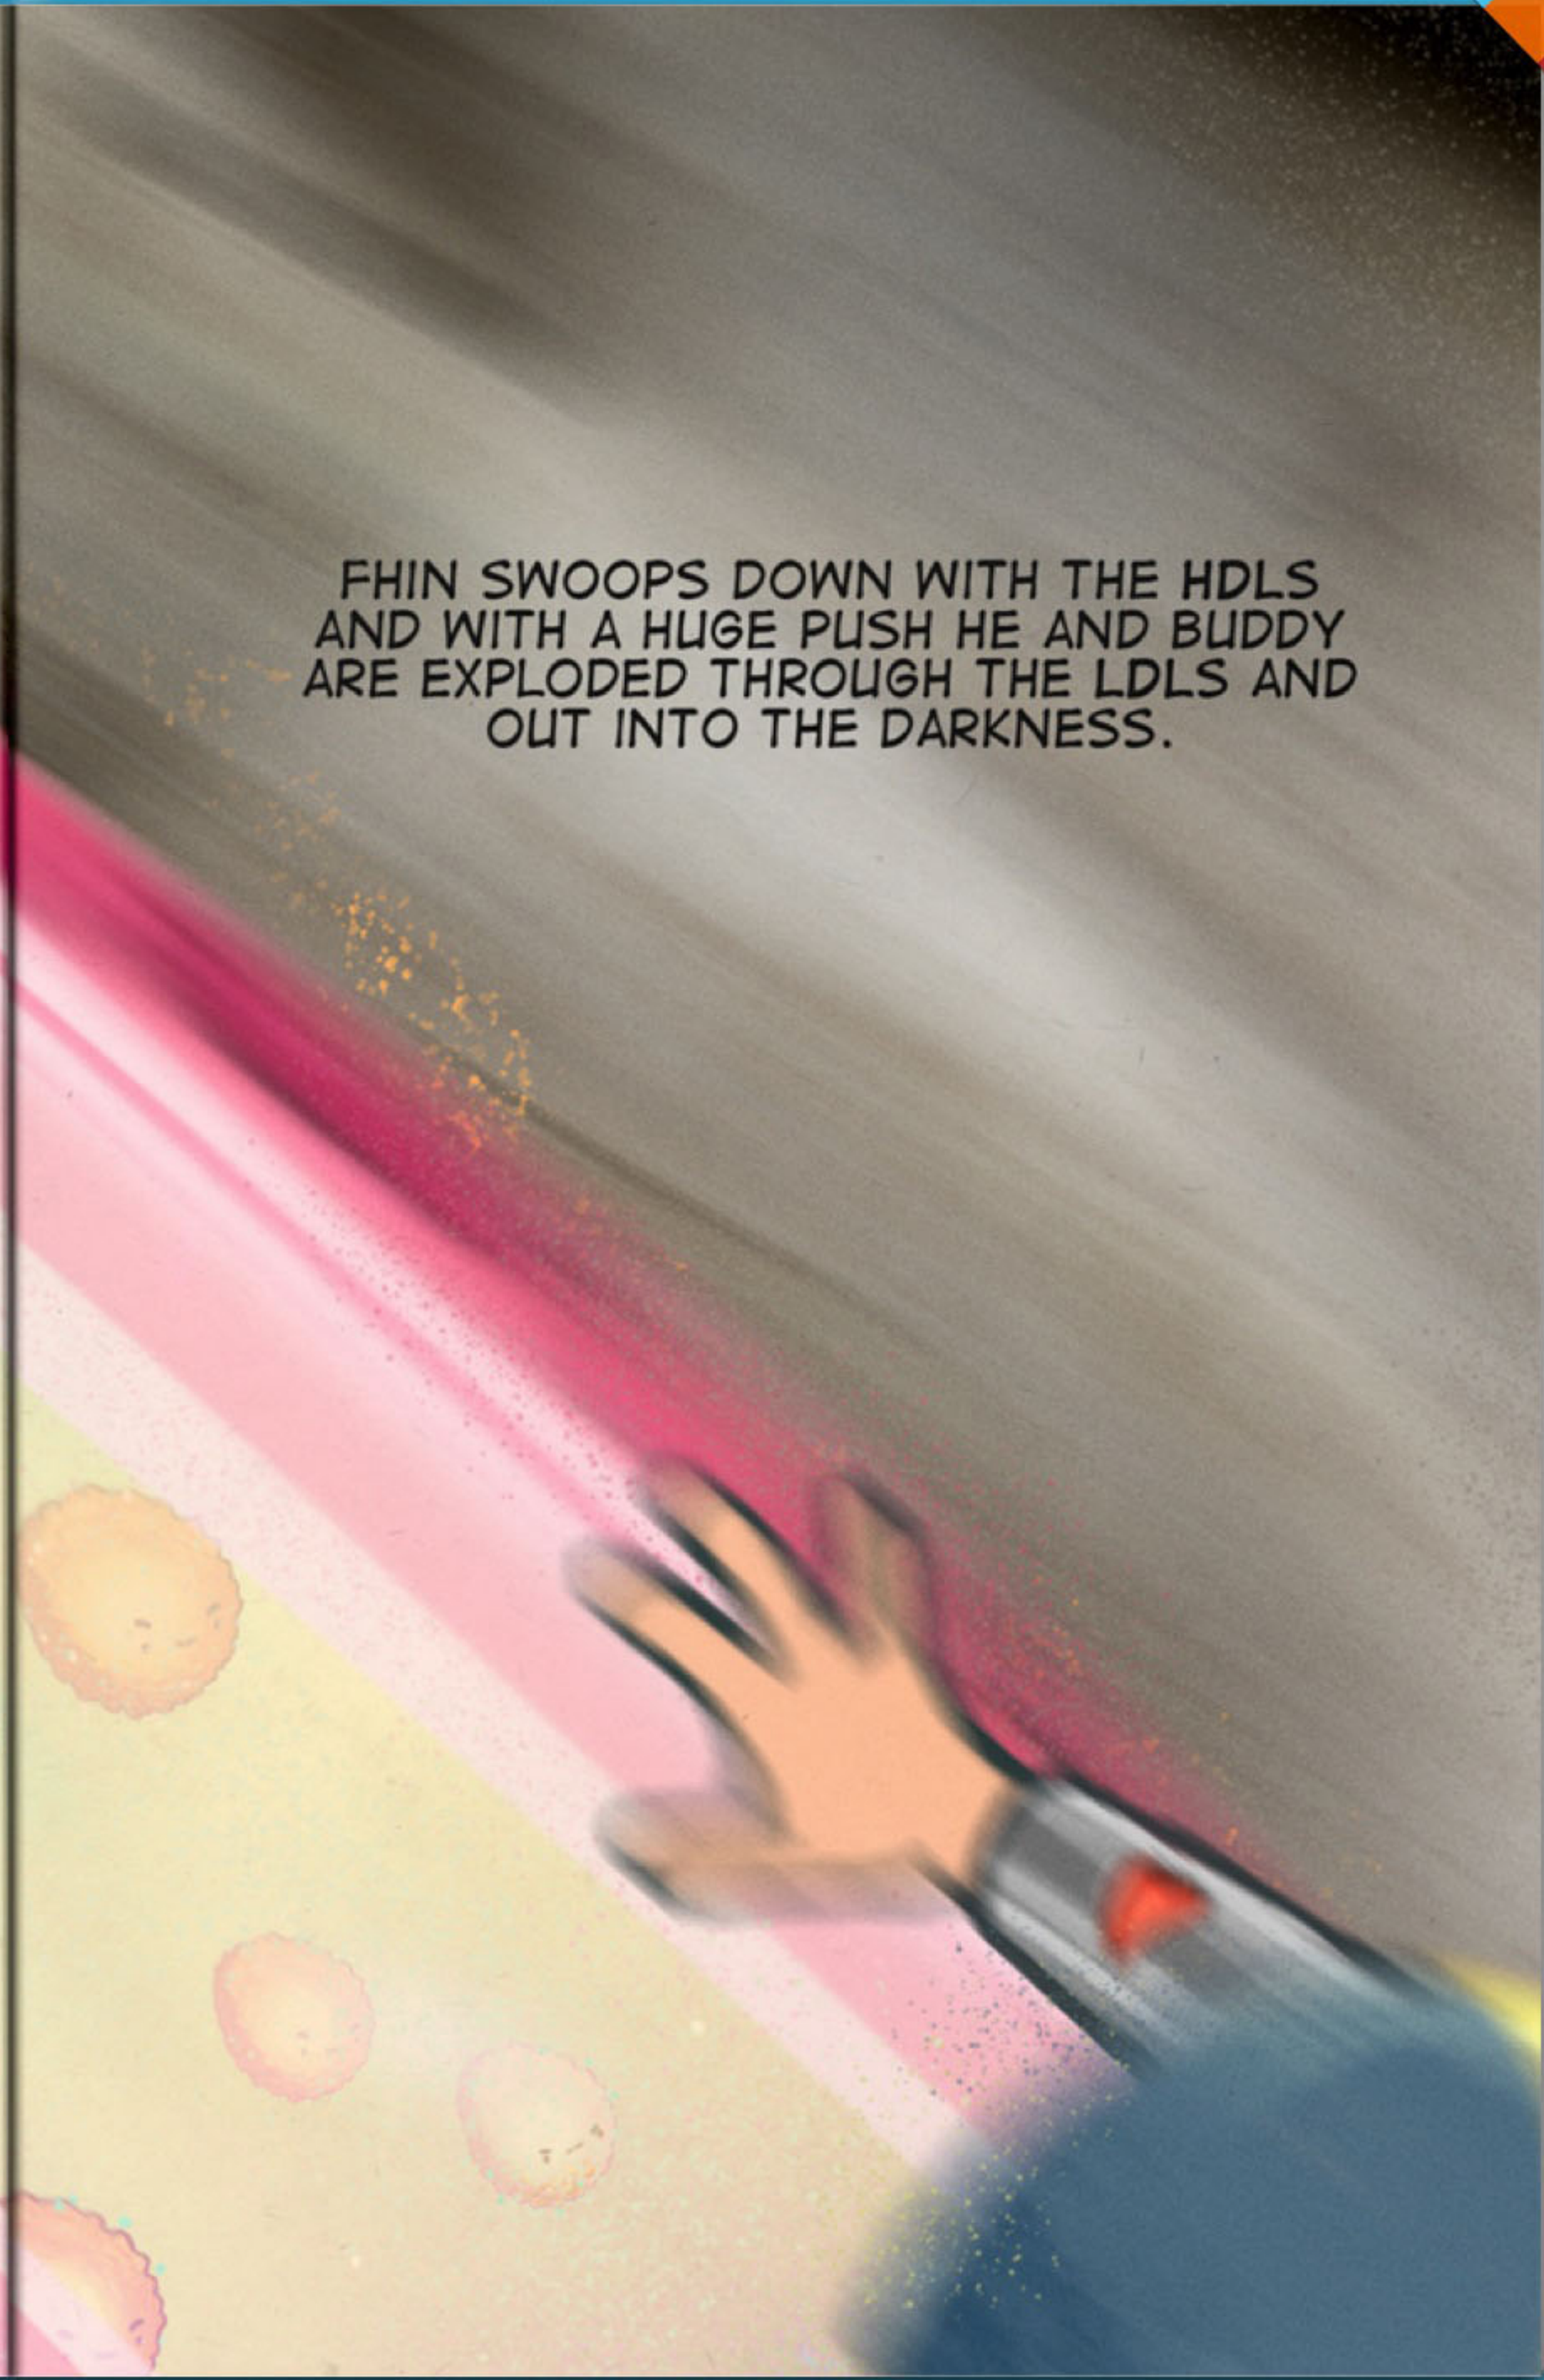

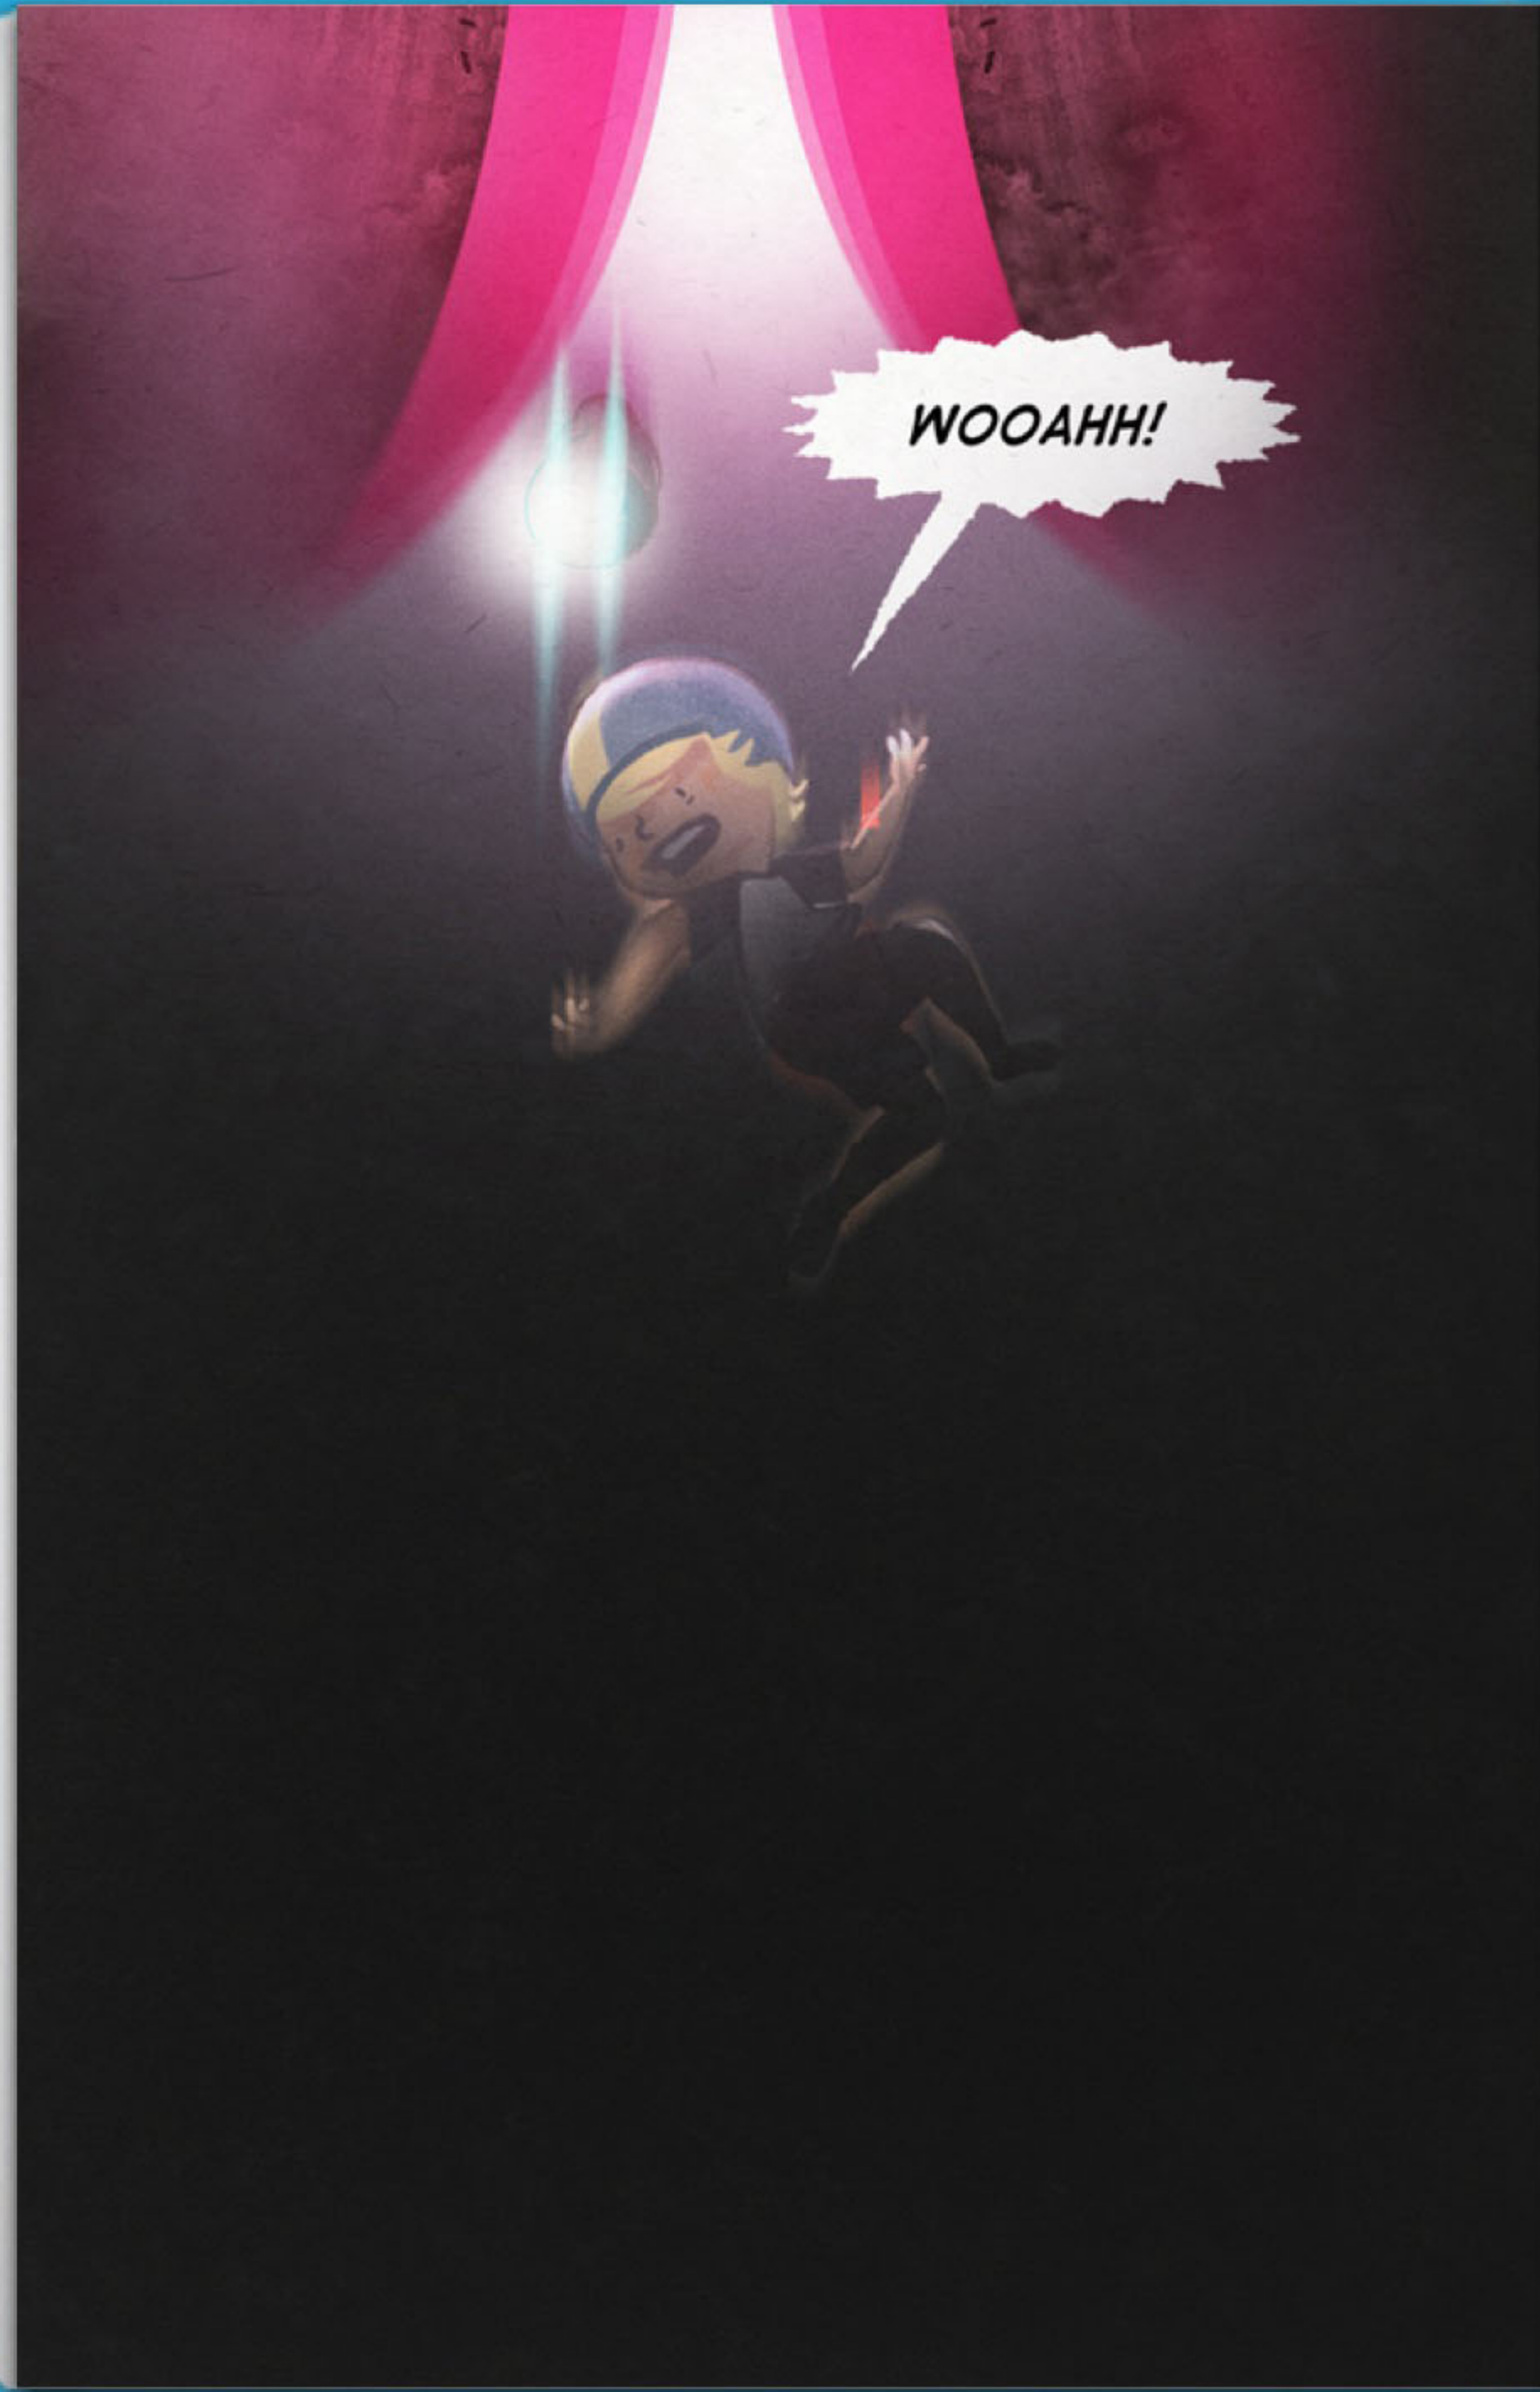

OKAY GUYS
LETS MOVE IT!

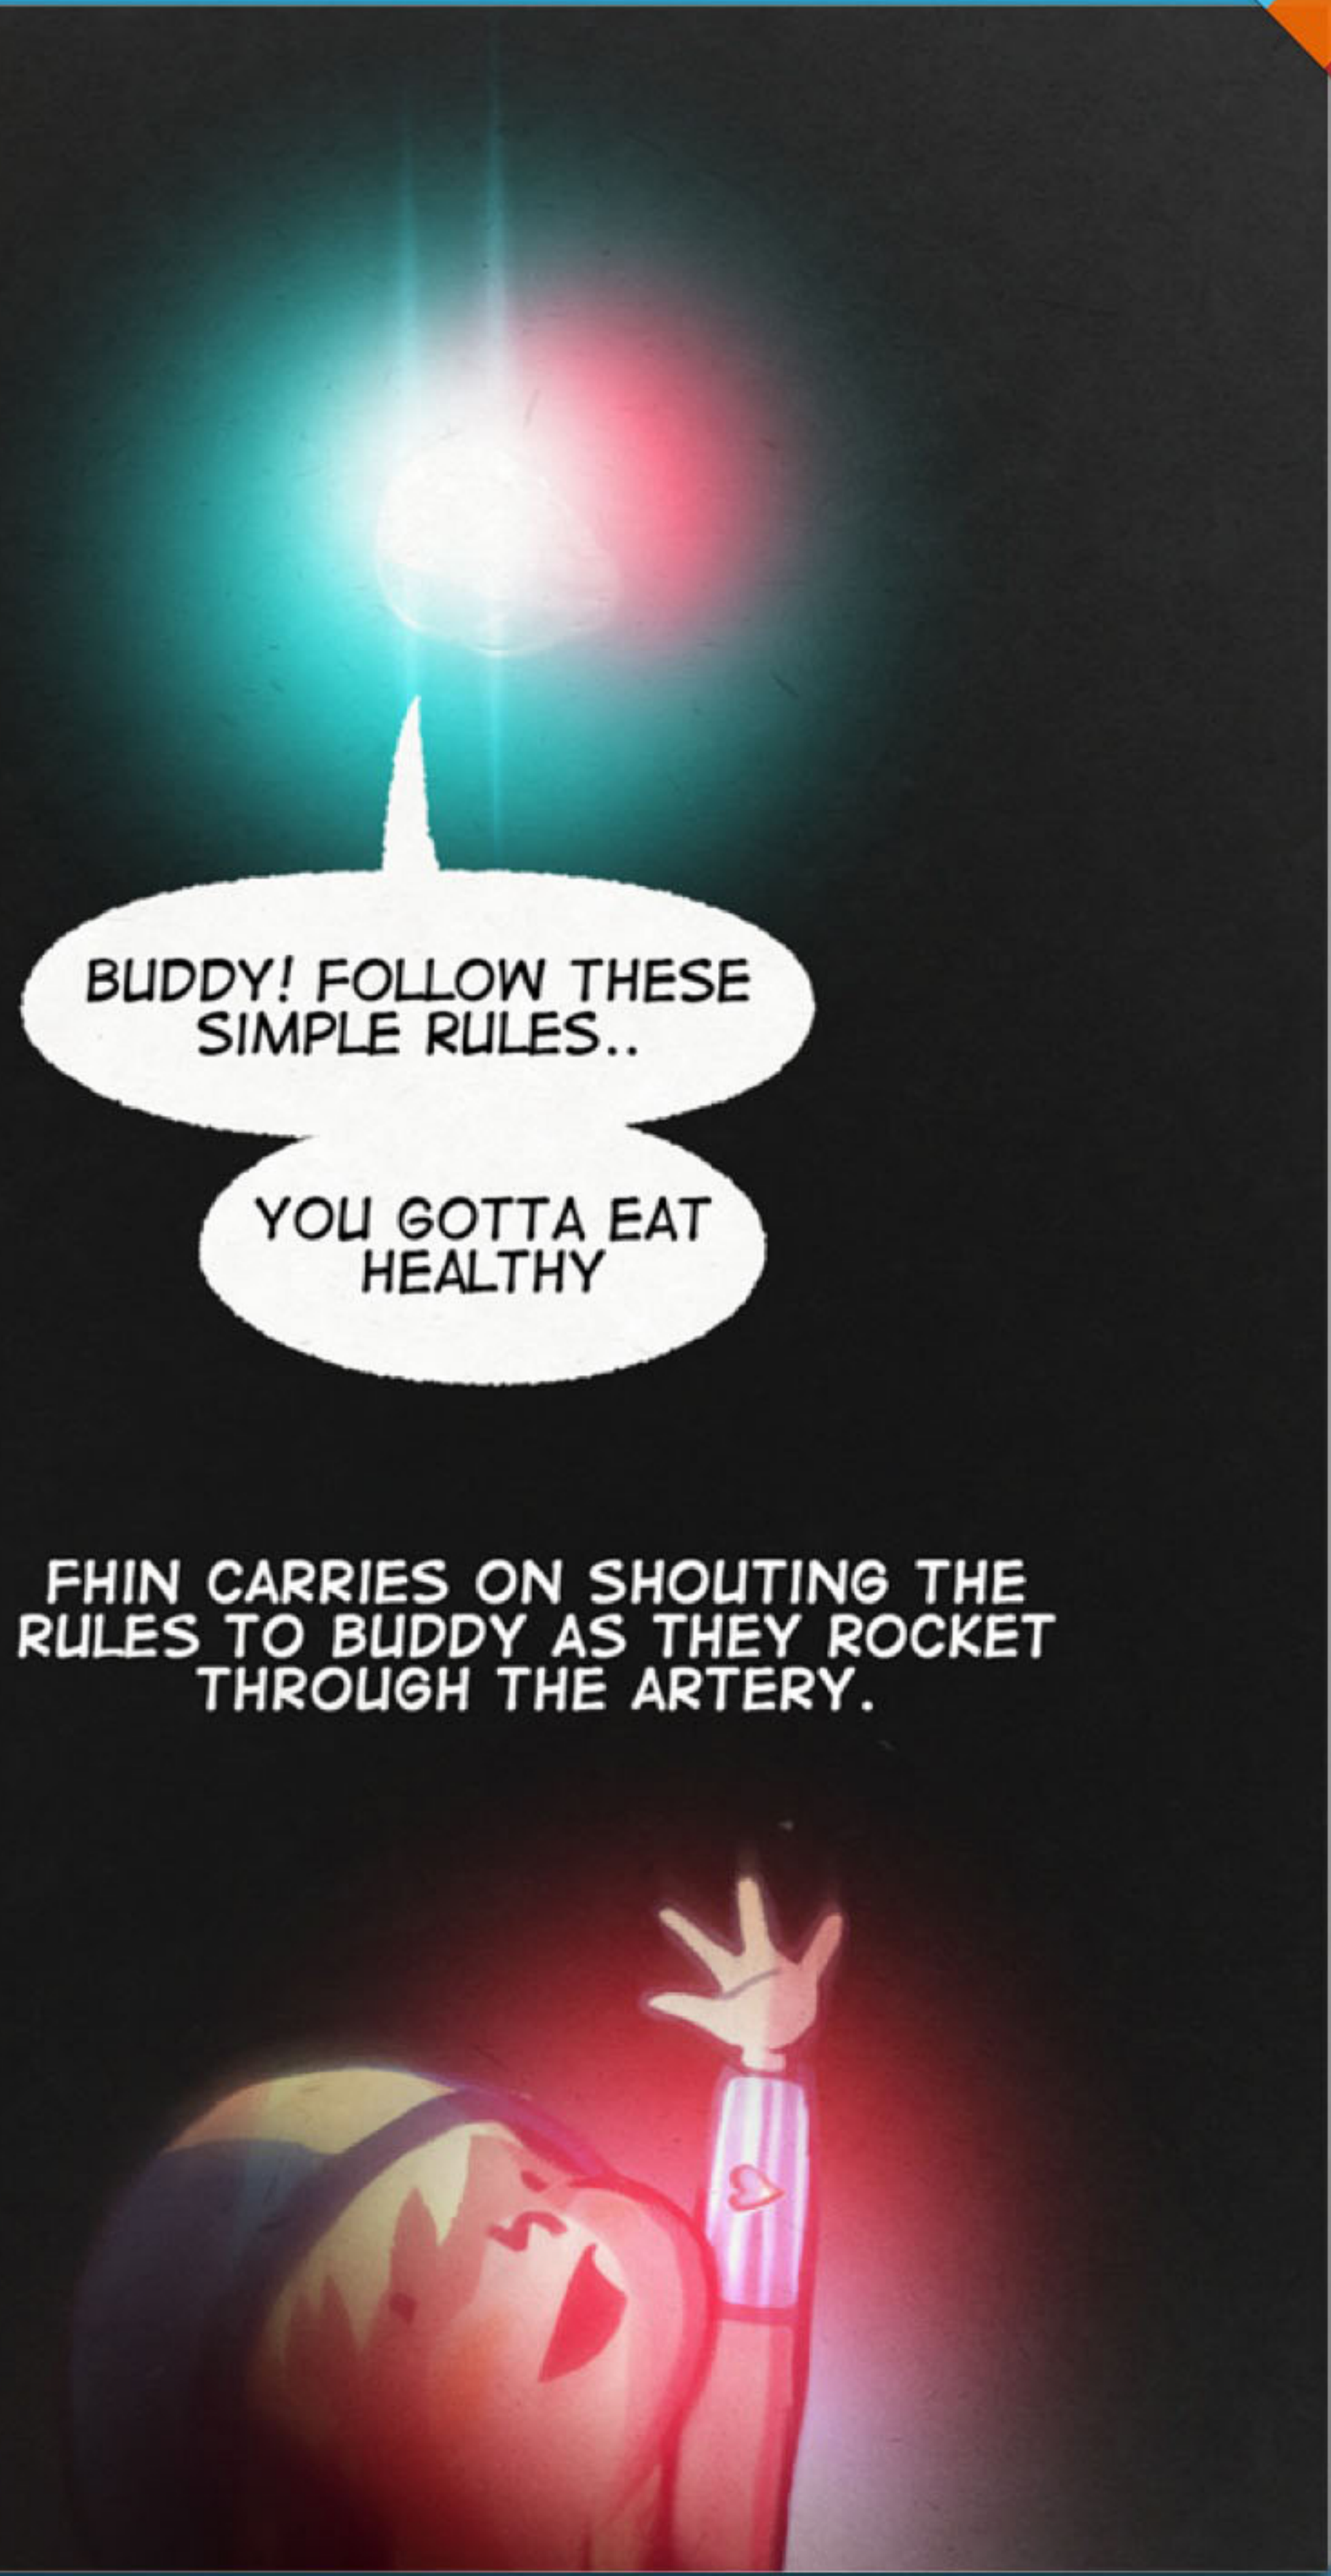

SHOUTS AN HDL

FHIN SWOOPS DOWN WITH THE HDLS
AND WITH A HUGE PUSH HE AND BUDDY
ARE EXPLODED THROUGH THE LDLS AND
OUT INTO THE DARKNESS.

WOOAHH!

BUDDY! FOLLOW THESE
SIMPLE RULES..

YOU GOTTA EAT
HEALTHY

FHIN CARRIES ON SHOUTING THE
RULES TO BUDDY AS THEY ROCKET
THROUGH THE ARTERY.

MAISY IS HOLDING THE SPRAY CAN AS BUDDY FLIES DOWN THE RAMP AND LANDS IN A HEAP.

WHOAH! YOU BOMBED THAT

THAT WAS WICKED!

I KNOW WHAT
CHOLESTEROL IS NOW AND
ABOUT **HDLS** AND **LDLS** AND
ABOUT THE LITTLE HANDS ON
THE **LIVER**

AND THAT HAVING **FH**
DOESN'T STOP ME DOING
ANYTHING...

BUDDY SAYS EXCITEDLY

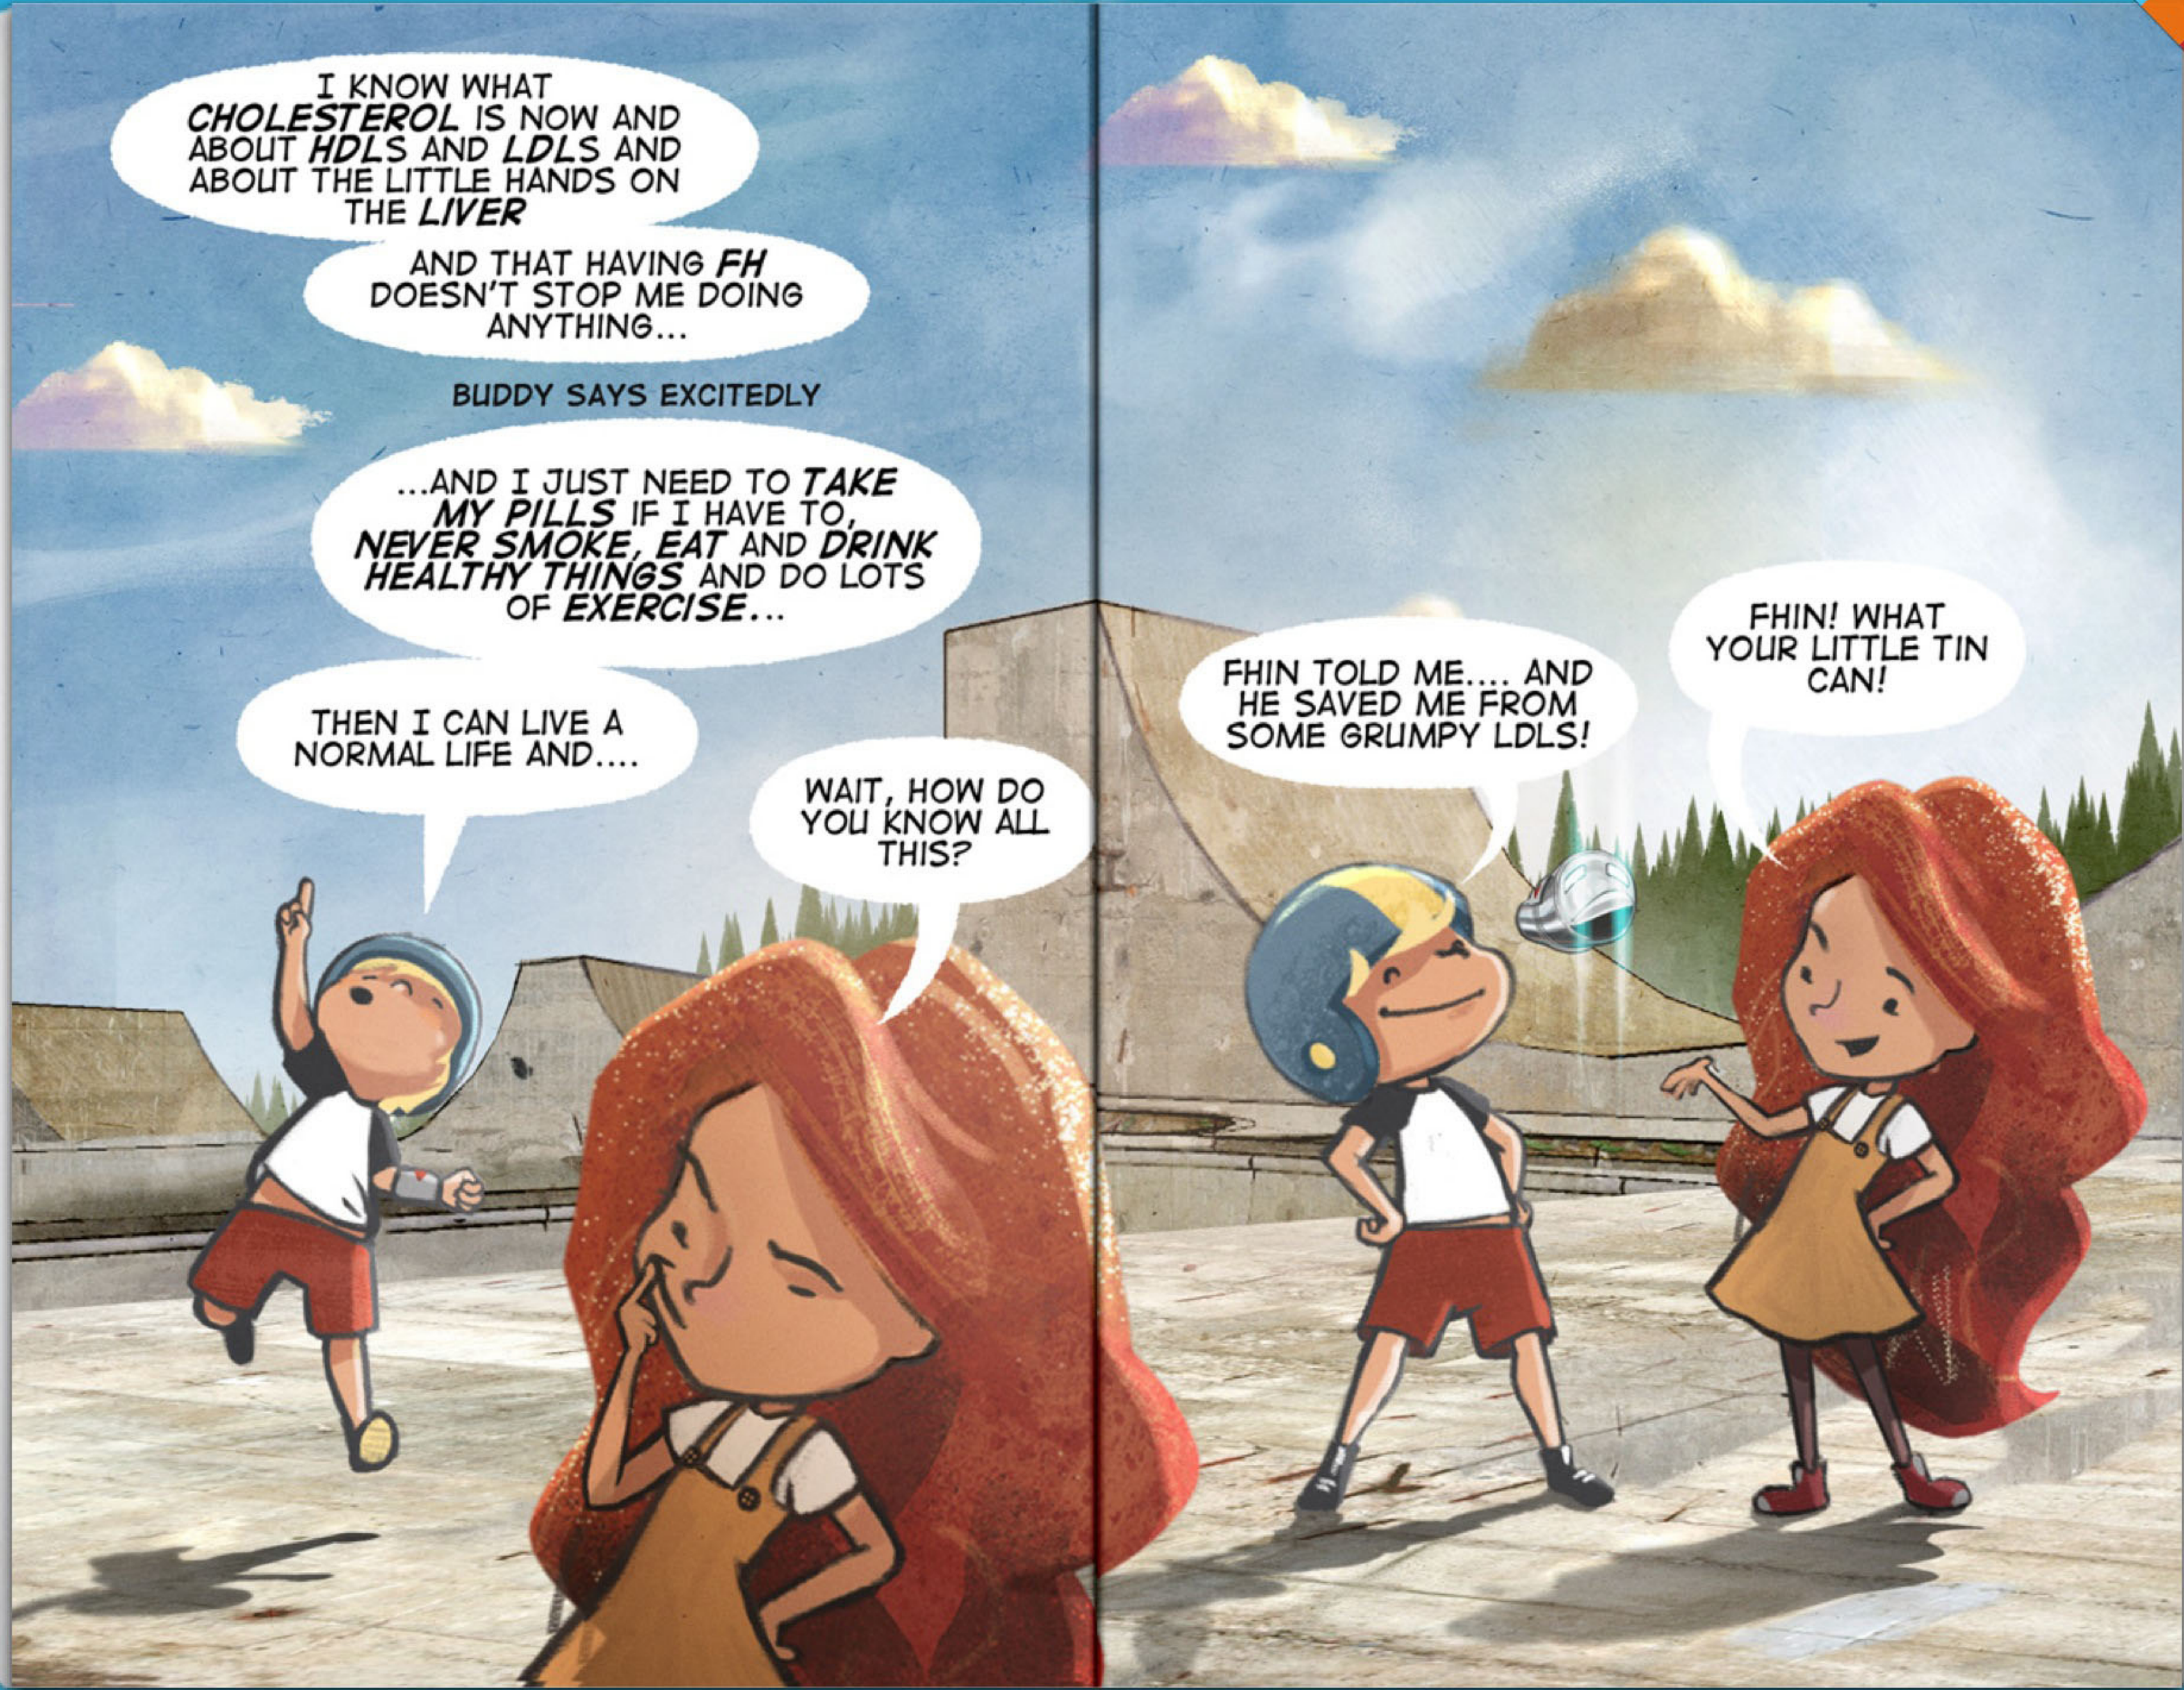

...AND I JUST NEED TO **TAKE**
MY PILLS IF I HAVE TO,
NEVER SMOKE, EAT AND DRINK
HEALTHY THINGS AND DO LOTS
OF **EXERCISE...**

THEN I CAN LIVE A
NORMAL LIFE AND....

WAIT, HOW DO
YOU KNOW ALL
THIS?

FHIN TOLD ME.... AND
HE SAVED ME FROM
SOME GRUMPY **LDLS!**

FHIN! WHAT
YOUR LITTLE TIN
CAN!

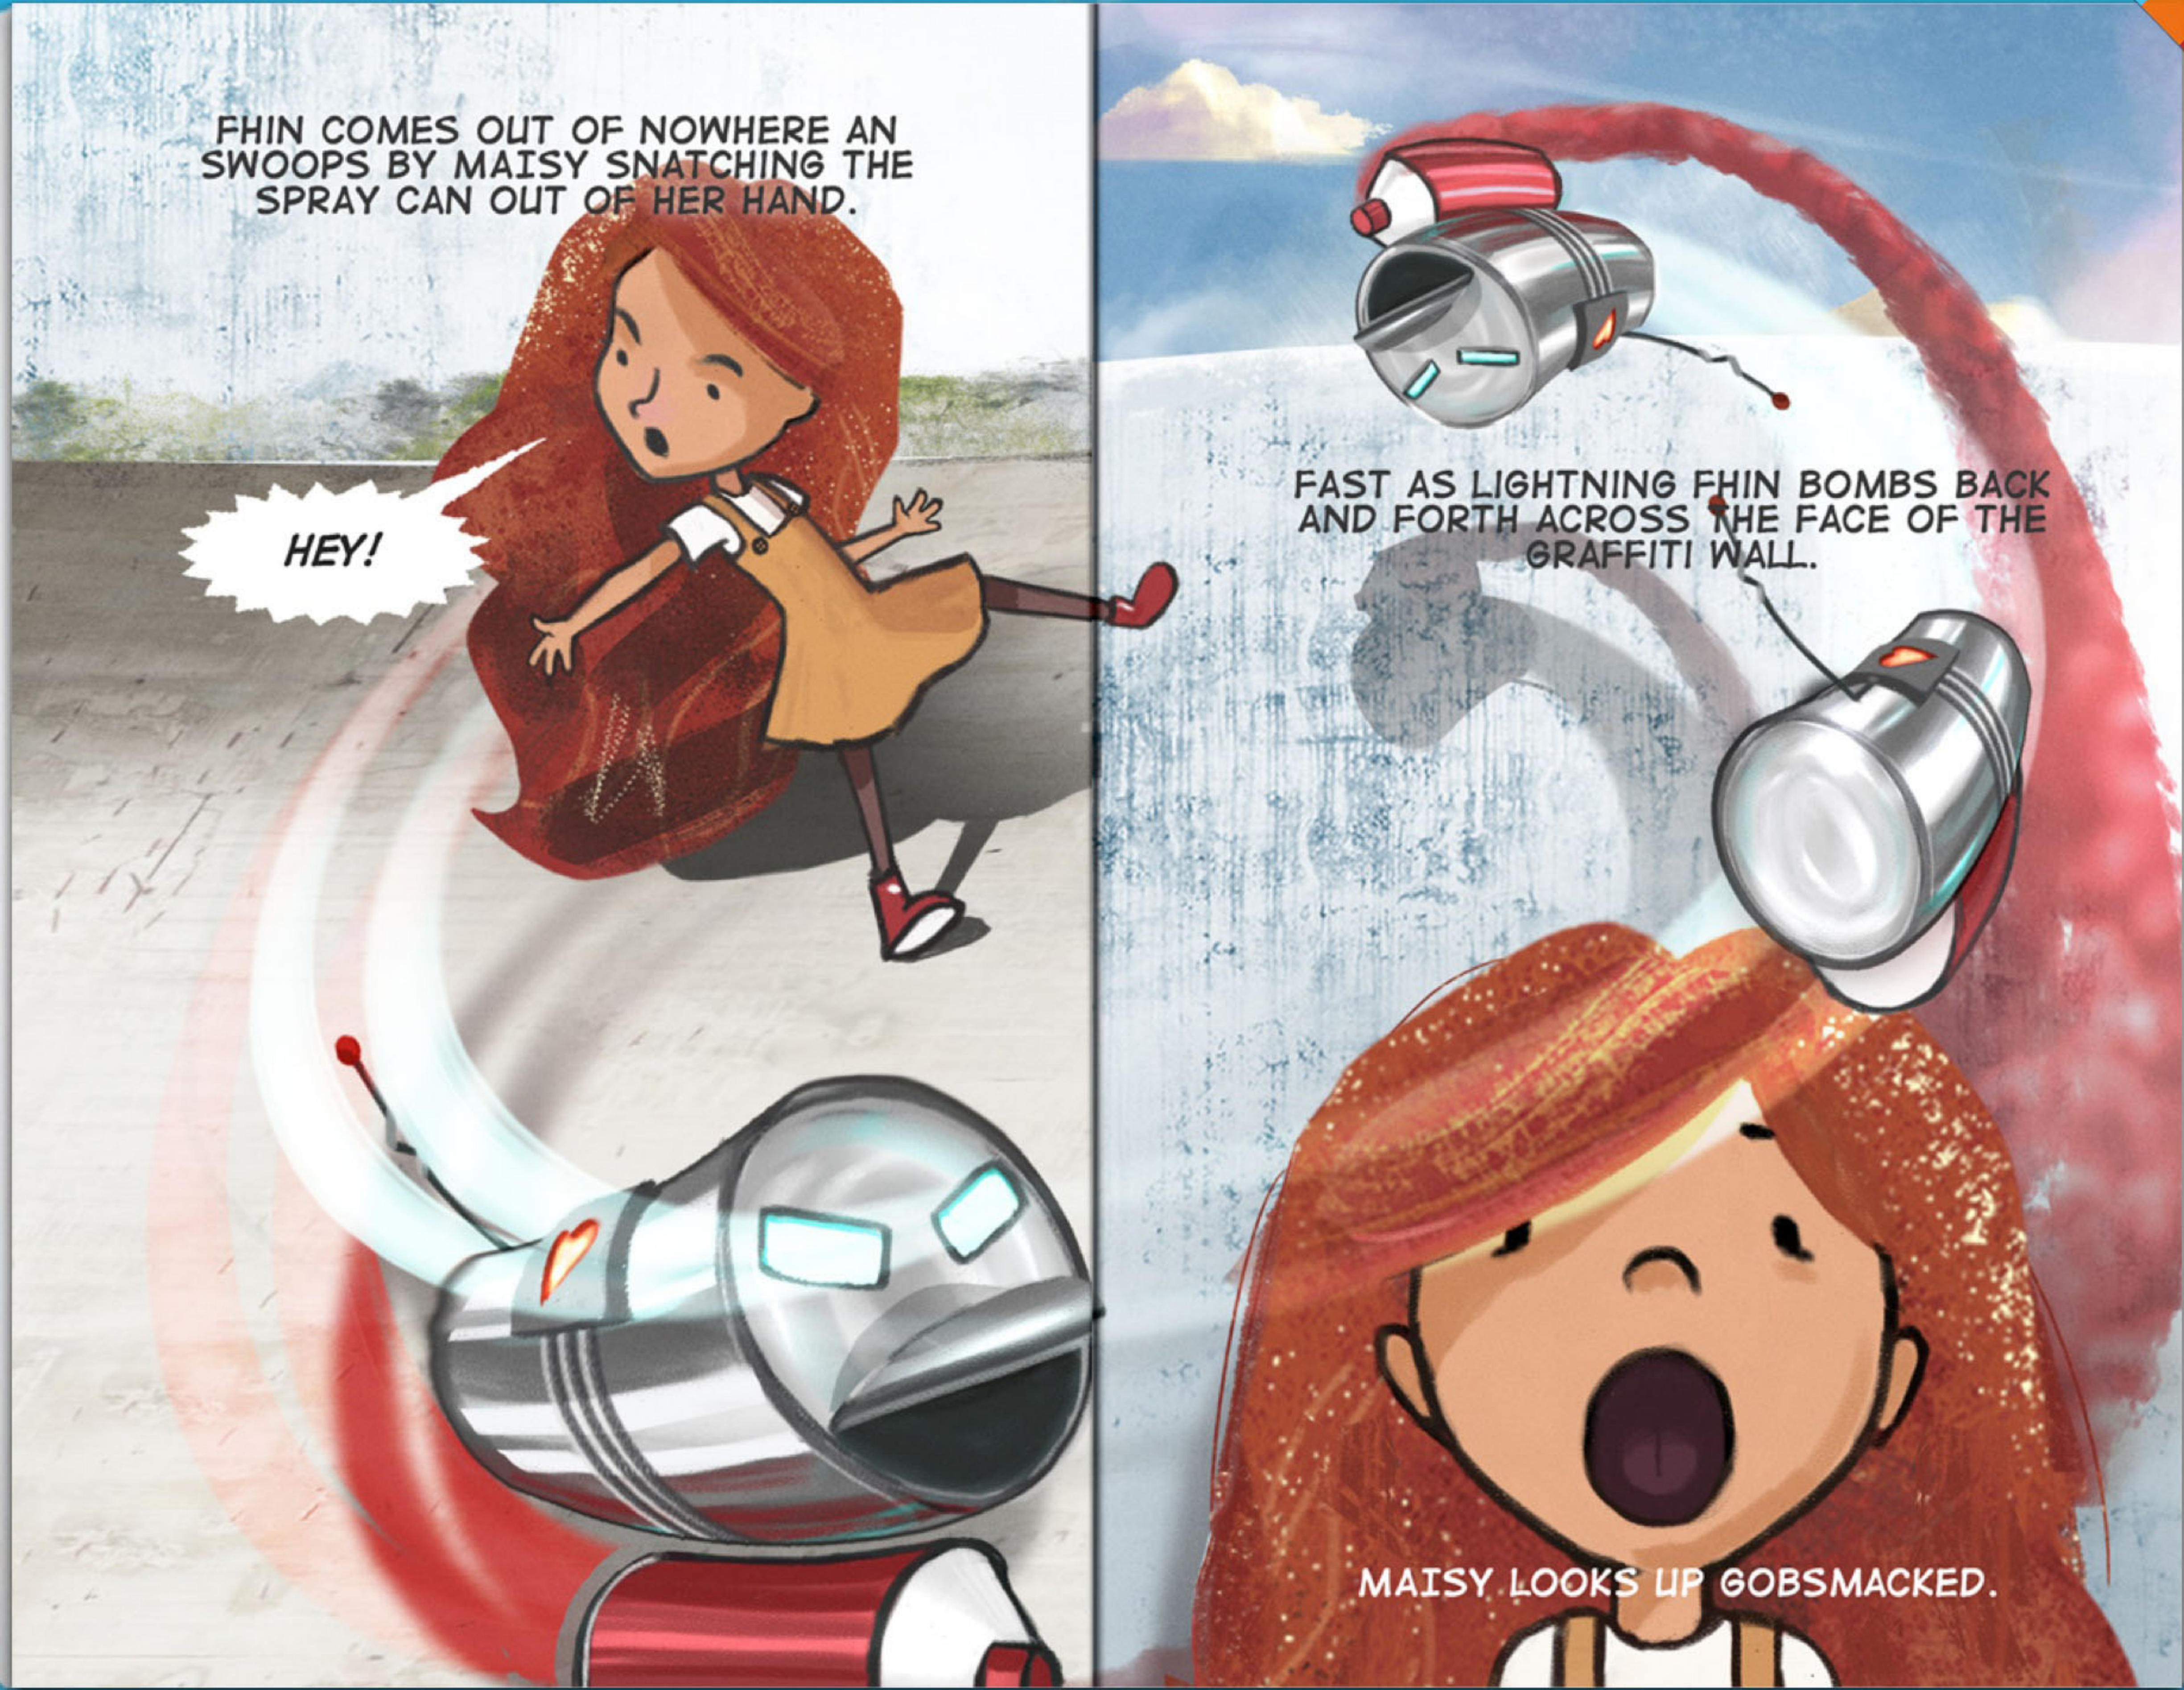

FHIN COMES OUT OF NOWHERE AN SWOOPS BY MAISY SNATCHING THE SPRAY CAN OUT OF HER HAND.

HEY!

FAST AS LIGHTNING FHIN BOMBS BACK AND FORTH ACROSS THE FACE OF THE GRAFFITI WALL.

MAISY LOOKS UP GOBSMACKED.

MAISY SNAPS OUT OF IT....

HEY WAIT!

BUDDY,
FHIN!!

BUDDY, DROPS HIS BOARD AND
BURNS OFF WITH FHIN.

LAST ONE
HOMES A ROTTEN
LDL!!

...AND REMEMBER

CHOLESTEROL

Cholesterol is made in the liver and it helps the body grow and do its job.

LDLs

LDLs in the blood carry cholesterol around the body to where it's needed.

HDLs

HDLs in the blood take any cholesterol that isn't being used back to the liver to be recycled.

LIVER

It also turns food into stuff that your body can use and gets rid of the stuff that it can't use or is bad for it.

ARTERY

Arteries take blood and oxygen around the body.

BUDDY'S RULES OF COOL!

Never smoke, eat and drink the right things, exercise and don't forget to take your pills if the doctor says you need them.
